Aldo Lisi

**Members Absent:** -

## Topics Discussed:

This was first group meeting , where main points of discussion were , the group leader election and the Software Engineering Project Ideas , presented by group members. At the end of the discussion , the proposed topics for project were:

- Building School Management System like EIS but different
- Building an app for Epoka Dormitory that deals with dormitories issues
- Building an website where we would collect all the famous shops in Albania. An Amazon like website to solve the tracking problem of the packages delivered.

By discussing with each other investigating the drawbacks and advantages of each idea we planned to continue with the ides of SHOPPING and DORMITORY.

## Decisions Made:

At the end of the meeting , after narrowing our topic to a manageable scope we had two ideas which we were going to present the next day in class.

Also, the group members decided for the team leader to be Nail Spahija.

We created a group in the whatsapp , to easily communicate with each other.

## Tasks Assigned:

For the next meeting we decided to have it in Dormitory the next day after confirming with our professor the ideas.

## Time, Place, and Agenda for Next Meeting:

Tuesday March 13-rd , in Epoka Dormitory ,Study Hall
