MEETING REPORT

Team Name: EDMS   **Date of Meeting:**   13.03.2018
Start Time: 10:30   **End Time:** 11:30   **Meeting Location:**   Study Hall Dormitory

Moderator: Nail Spahija   **Recorder:**   Klevis Xhyra

Other Members Present: Semih Zengindemir
                                                    Kristjan Pashollari
                                                    Aldo Lisi

Members Absent: -

Topics Discussed:

This was group's second meeting after the Software Engineering Project Ideas were discussed in class with the professor. After the lecture we still were undecided and had two ideas in mind :

- Building an app for Epoka Dormitory that deals with dormitories issues
- Building an website where we would collect all the famous shops in Albania. An Amazon
  like website to solve the tracking problem of the packages delivered.

We met at 20:45 at Study Hall at Epoka Dormitory
By discussing with each other investigating the drawbacks and advantages of each idea we planned to continue with the idea of DORMITORY.
We also discussed about the technologies that we would be using. As the team leader was more comfortable with a framework called Symfony we decided to keep on with that for our project. We also discussed about Github and created our accounts.

Decisions Made:

At the end of the meeting, some duties were given to members for the next meeting. The team leader provided us some tutorials about Symfony that we should have finish until next meeting. Also we decided to build our project as an website and then if we would have time to build an Android application.

Tasks Assigned:

Each of us had to finish the tutorials and master the Github knowledges.

Time, Place, and Agenda for Next Meeting:
For the next meeting we decided to have it in Office Clubs after the lesson on Monday 19/03/2018.
